

Step Up Cornerstone

I want to start by thanking you for your incredible response to Step-Up Cornerstone this year.

Between new estimate of giving cards and those who sacrificially chose to step up their giving this year, we saw an increase of close to \$6,000.00 a month.

However, that's kind of like "but", this past year Cornerstone was faced with several financial challenges, all of which God met through his people as well as the rental income we received from Forestkids.

Through the year we were running behind in our budgeted giving and the staff was diligent in keeping spending to a minimum. Two significant gifts during the winter made sure that we ended the church year well financially.

Your sacrificial response during Step-Up and the rental income from the Korean Church means that we are able to increase our budget this year to reflect increased costs and offer our staff a cost of living increase.

Angela does remind me that, God has provided before, and He will provide again.

Thank you and as we look ahead to a great year of making a difference, Here, Near and Far Away.

For the Kingdom Denn
